

**ACFIC – RENTAL DWELLING****INSPECTION OF DWELLING/REQUIRED PHOTOS**

All required interior and exterior inspections and photos must be completed through a virtual inspection **prior to binding** coverage. The policy must not be submitted prior to the completion of the inspection.

In the event there is a delay in binding the new business policy, completed inspections are valid for 90 days from the date the inspection is completed. If the original inspection completion date is more than 30 days old and a new loss occurred, a new home inspection is required. This applies whether the insured advises us of the loss or whether the loss shows on CLUE.

**APPRAISALS and REALTOR PHOTOS** – A home purchase appraisal or realtor photos may be submitted in lieu of a required inspection. Acceptable appraisals must have been completed during the purchase of the home (within 180 days of the policy binding/witness date), and all pages of the appraisal must be submitted, including full interior and exterior photos of the home. Realtor photos can be used if enough photos of the residence are available through realtor website (such as realtor.com) to satisfy all inspection criteria, and the listing/photos are not older than 180 days. If an inspection has been completed, photos from a realtor website cannot be used to resolve issues discovered in the inspection. Home inspections reports are not acceptable. A home purchase appraisal or realtor photos cannot be used in lieu of an inspection if:

- There are prior losses at the risk address
- The home was built prior to 1950
- The home appraisal does not contain all required exterior and interior photos (see photos requirement chart)

Inspection / Photo Requirements	
Exterior	<ul style="list-style-type: none"> <li>• A minimum of 6 photos must be taken.               <ul style="list-style-type: none"> <li>○ 1 photo of the front of the dwelling.                   <ul style="list-style-type: none"> <li>▪ The front dwelling photo should include roof condition, elevation, landscaping, bushes and vegetation close to the dwelling.</li> </ul> </li> <li>○ 1 photo of each side of the dwelling, showing the entire side (2 photos at a minimum).</li> <li>○ 1 photo of the rear of the home.                   <ul style="list-style-type: none"> <li>▪ The photo of the rear of the home should be taken looking towards the home from the yard, showing condition of the roof, balconies, decks, landscaping, bushes and vegetation.</li> </ul> </li> <li>○ 1 photo of the rear yard.                   <ul style="list-style-type: none"> <li>▪ The photo of the rear yard should be taken looking away from the home, into the yard, showing condition of all detached structures, swimming pools, spas, gazebos, trampolines, fences, surrounding vegetation and other liability exposures.</li> </ul> </li> </ul> </li> </ul>
